

P4HC+ Administrative updates

Dear colleagues,

Greetings from the P4HC+ secretariat!

We hope you have enjoyed the newsletters. There are a few administrative updates. First, we have welcomed two new members from UNICEF. Second, from the last meeting discussion, P4HC+ would commit to join regular meetings with TWG-H and Health Partner Groups. Last, there will be a recurrence calendar for P4HC+ regular meetings, on every second Friday of the month, from February 2017 onwards. January meeting is to be confirmed.

After all, wish you a Merry Christmas and a Happy New Year!

P4HC+ Secretariat

Next Regular Meeting

The next meeting is to be held on **Friday 9th December 2016** at **World Bank Office (Room MR5)** from **2:30pm to 4:00pm**. Agenda includes:

Open letter on the SDGs: a robust measure for universal health coverage is essential

Authors: Di McIntyre, Martin McKee, Dina Balabanova, Chris Atim, K. Srinath Reddy, Walaiporn Patchanarumol, on The Lancet, 2016

Summary:

The open letter was published on behalf on 250 signatories, one of which is from Cambodia, to advocate for support from Inter-Agency Expert Group on The Sustainable Development Goals (IAEG-SDGs) on the refinement of indicator 3.8.2 of SDG3 for UHC. The argument for this refinement was built on a number of concerns including that the original indicator of improved financial risk protection focuses solely on quantitative outputs (for example: the number of people insured by health insurance or public health system) which do not necessarily ensure that health coverage issues are well addressed.

CSOs celebrate UHC indicator win

Good news....

“The expert group in charge of developing the indicators for the Sustainable Development Goals has agreed to reconsider an indicator for universal health coverage.” However, some challenges still worry the CSOs.
