Subject: P4H membership application

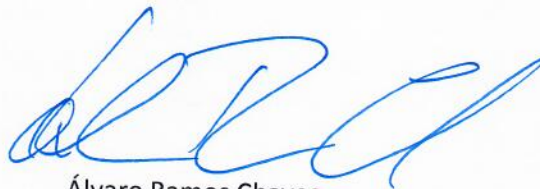

Dear P4H Coordination Desk,

The National Social Security Fund of Costa Rica (CCSS) would like to apply to become a member of the global network for social health protection and health financing (P4H).

With over 70 years of experience gradually expanding coverage to the entire national population, the CCSS is the main vehicle of Health Coverage in Costa Rica. For this reason, we would be delighted to share insights and good practices, as well as to collaborate with P4H members to support progress towards the UHC agenda globally.

Your consideration and prompt action for integration will be much appreciated.

Sincerely,

Álvaro Ramos Chaves
